SEPTEMBER 2020

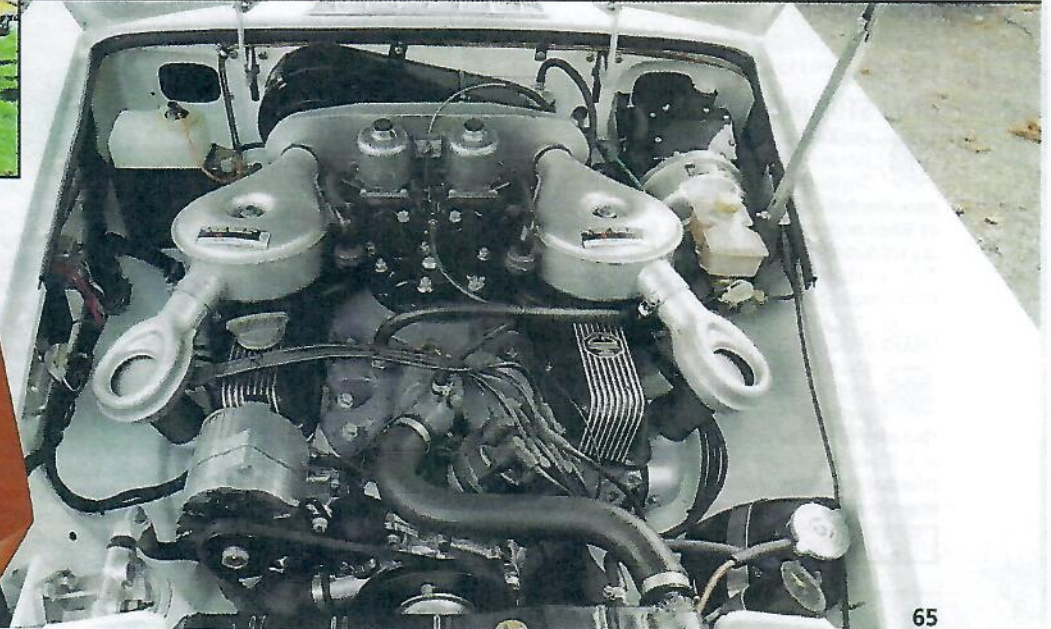

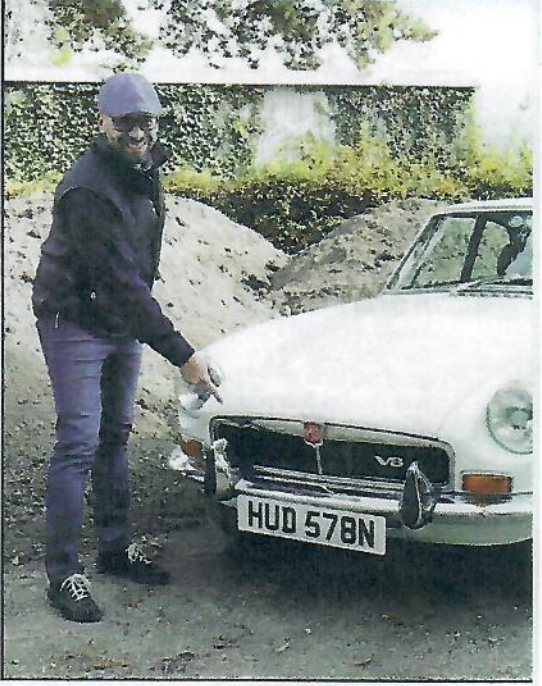

THE SWISS MGs

The SWISS-MGV8/IG (IG for Interest Group) was founded in January 2012 by volunteers and all-round enthusiasts of MG V8s, Victor and Evelyne Rodrigues. They had the kind support of photograph-reporter Eric Pfändler and Mrs. Gertrud Wasser as webmaster.

Our main aim was to introduce a new and independent interest group for owners and enthusiasts of this very specific type of MG in Switzerland. No profit of any kind is generated and there is not a membership fee to join. We want to maintain a good relationship and constructive interface with classic car clubs in Switzerland and abroad, e.g. with the very cooperative and active MGOC in the UK, as well as with different associations of British classic cars powered by V8 Engines. This is just for fun, enjoying and sharing the same passion with friends.

Victor Rodrigues-Huguenin

If you would like to find out more about the club, we would like to emphasise that MG V8 owners from abroad are always very welcome to participate at our local events whenever visiting or traveling through Switzerland.
