

Saint-Prex, 5th October 2024

Historische Begegnung:

MGB/GTV8 Prototype
eingerahmt von den letzten MGRV8, in England gebaut

As previously announced, the traditional SCBCM event took place last Saturday, October 5th, in the village of Saint-Prex, on the shore of Lake Geneva, in which this time the classic MG's were the guests of honor and also celebrating the centenary of the MG brand.

Although the weather forecast was not very inviting, it did not prevent more than 1000! classics from being recorded, coming not only from Switzerland but also from the neighboring countries Germany, France, Austria and Italy. The MG's-Classics exceeding a hundred of all types with a maximum age limit of 35 years (with the exception of the most recent MG's of English manufacture, RV8s, Z's and F/TFs), found themselves again in frank fraternization of their owners and enthusiasts. Also strongly represented were the iconic MINI's, Lotos-7, Triumph-Stag's, Jaguar-K's and last but not least the glorious RR's!

Our [SWISS-MGV8/IG](#) was once again present in a reserved parking area. where this time 11 magnificent MG's/V8s gathered, with special emphasis on the unique ones: Pre-production **LHD BGT/V8 0100G** owned by Eric Prasse and the **LHD BGT/V8 0110G** as well as the rare **LHD, B/V8-Roadster**, both owned by Jöel and Sylviane Mariaux. In total, 15 MG's/V8 showed up at the SCBCM event.

Finally, the day was crowned with dry weather with plenty of sunshine, but.....sometimes accompanied by strong gusts of wind (Bise) and low temperatures between 7C and 14C!

For 2025 it is already scheduled to take place **on Saturday, October 4th.**

For 2025, for all those who want to stay overnight in the region, we suggest the friendly and comfortable **Hotel AFTERWORK** in the nearby village of **Etoy**, 3 km from Saint-Prex, with an excellent covered parking area for classic cars.

See you at Saint-Prex 2025!
